

Dear: Mr. Yamaguchi Kimio, Phó Chủ tịch, Huredee

On June 8, 2006, the Prime Minister signed the decision to establish the University of Information Technology - a member of the Vietnam National University, Ho Chi Minh City. This event marks a turning point in the training of high-quality IT human resources of the whole country in general and of Ho Chi Minh City in particular.

Responding to that great expectation, within the past 15 years, from a young unit, the University of Information Technology (UIT) has gradually affirmed its brand in training and scientific research, actively contributing to the development of Vietnam's IT industry.

That success is due to the close attention from the Party Committee - Board of Chancellor of Vietnam National University Ho Chi Minh City; the unceasing dedication of lecturers, officials and employees; the best efforts in learning of generations of students; the companionship and support from valued units and business partners.

On behalf of the UIT, I would like to thank the contributions and active support of Huredee during the past year. I hope that Huredee will continue to accompany the UIT on the upcoming journey, together with the UIT to complete the goal of making the VNUHCM - University of Information Technology become a prestigious university in the field of science and technology - communication and related fields in Asia.

Wishing Huredee always thrive, have great success and safely overcome this Covid-19 pandemic.

Best regards.

Nguyen Hoang Tu Anh, Assoc Prof. Dr.
President
University of Information Technology, VNU-HCM
